The winter sports possibilities are numerous, with an immediate access to the famous ski domain of the 4 Valleys.

In summer and autumn, Nendaz offer endless possibilities of walks along the "bisses", these canalized small rivers running through the slopes of the mountains and that were used to irrigate the land.

### Winter access

During the winter season, it is strongly advised to have a vehicle equipped with snow tires, or to have chains in the car.

The road to our chalet is cleared, yet it still is a small mountain road.
